InovaCares for Seniors (PACE®) is a Program of All-inclusive Care for the Elderly.

Our program is the first of its kind in Northern Virginia.

We specialize in providing medical and social services to those who require medical and nursing care, but prefer to live at home rather than a nursing facility.

PACE® is a 3-way agreement between InovaCares for Seniors, the Department of Medical Assistance Services (DMAS) and the Centers for Medicare and Medicaid Services.

Our Enrollment Specialist will meet with you (and caregivers/family members if desired) at your home to tell you about our program and assess your eligibility. We will then schedule a visit to our center where you will meet with the doctor, nurses and other staff. You will receive a medical evaluation at this time so your individualized care plan can be established.

To schedule an appointment, call 703.239.5888 or visit inova.org/pace

What happens to my Medicare/Medicaid coverage when I enroll with InovaCares for Seniors?

Participants with Medicare and/or Medicaid do not lose their coverage, but authorize InovaCares for Seniors to administer their benefits. This means that you maintain benefits covered by Medicare and/or Medicaid and become eligible for additional benefits offered by InovaCares for Seniors. All services must be approved by the InovaCares for Seniors™ interdisciplinary team. Participants in the InovaCares for Seniors™ program may be fully liable for the cost of services obtained without the authorization of the interdisciplinary team. For emergency services, no prior authorization is needed. Individuals who are currently enrolled in a managed care health plan must disenroll and agree to receive services exclusively through InovaCares for Seniors in order to get these benefits.
