

The Inova Breast Care Center

World-Class Surgical Care

Our breast surgeons offer a high-level of integrated care for patients with breast conditions, from benign breast disease to breast cancer, as well as those who have a high risk for developing breast disease.

Our surgeons work closely with our dedicated breast radiologists – located in the same building - so that appointments, imaging and diagnosis can be closely coordinated.

“We provide a support system of experts dedicated to caring for each patient and her individual needs”
- Dr. Cocilovo

Our Team Approach to Care

Our patients are treated by a multidisciplinary team of experts who work together to provide comprehensive treatment – ensuring better outcomes. The Inova Breast Care Center works with experts in the fields of:

- Surgical Oncology
- Plastic and Reconstructive Surgery
- Radiology
- Medical Oncology
- Radiation Oncology

Direct access to our breast care navigators and genetic counseling is a vital part of the breast center.

Navigators

Inova’s breast care navigators are personal resource experts for patients. These specially trained registered nurses serve as a source of support for the patient and their family. They help manage and coordinate doctor’s office visits, diagnostic tests, and communications among members of your care team. They also are excellent resources for information about clinical trials and breast cancer education.

If needed, our breast care navigators can also direct you to other resources available through Inova or the community for transportation and financial concerns.

Genetic Counseling

Inova’s Cancer Genetic Counseling Program serves women in the Northern Virginia and Washington, DC, region who may be at increased risk for hereditary breast cancer. Our expert staff see patients and their families for many different types of cancer, including breast, ovarian and colon cancer. They also work with women concerned about how a family history of breast cancer may affect them or other family members.

Inova Breast Care Institute

As part of the Inova Breast Care Institute patients benefit from a comprehensive, nationally recognized network of breast care specialists and treatment facilities located at Inova’s five world-class hospitals in Northern Virginia.
